PATHOLOGY SERVICES PERFORMED BY A BOARD CERTIFIED VETERINARY PATHOLOGIST

| | | |
|--|-----------------|-----------|
| Semi-quantitative or toxicology pathology report, 1-3 parameters | per tissue | \$ 20.00 |
| Semi-quantitative or toxicology pathology report, 4-6 parameters | per tissue | \$ 26.00 |
| Semi-quantitative or toxicology pathology report, >6 parameters | per tissue | \$ 32.00 |
| Comprehensive Pathology Report | Varies, inquire | |
| Annotation for Tissue Microarray or Lase Capture Microdissection | per tissue | \$ 28.80 |
| Annotated Images | per image | \$ 35.00 |
| Diagnostic pathology report, first site | | \$ 48.00 |
| Diagnostic pathology report, additional site(s) | | \$ 28.80 |
| Cytology (smears) | | \$ 30.00 |
| Consulation | Hour | \$ 150.00 |

Semi-Quantitative or Toxicology Pathology Evaluation:

What you get: Slides are either evaluated for abnormalities and then scored for those parameters or scored on a pre-defined set of parameters. Paramters may include findings such as inflammation, edema, necrosis, hyperplasia, or dysplasia. Each criteria is scored on a scale of 0-5 in which 0 is normal and 5 is severe change. Each slide is analyzed by a board certified pathologist and data is reported in an excel file.

1-3 parameters: \$20/slide

4-6 parameters: \$26/slide

Diagnostic Pathology:

What you get: Slides are evaluated by a board-certified veterinary pathologist for abnormalities. A description of the slide is provided and, if applicable, a diagnosis.

First slide: \$48

Additional slides from same animal: \$28.80

Annotation for Tissue MicroArray or Laser Capture Microdissection:

What you get: Slides are evaluated to determine regions of interest that will be used to generate TMA or LCMD sections. Slides or provided images are annotated accordingly.

\$28.80/tissue

Images:

What you get: Color photomicrographs are obtained and annotated as requested. Brief descriptions may be provided if needed. Images can be provided as raw image files or placed into image panels in Word, Powerpoint, Photoshop, or similar.

\$30/image

Pathology Report:

What you get: A report detailing the pathologic findings will be generated by the pathologist performing the analysis. The report will contain a description of the methods used, results including data and statistical analysis, a discussion, and conclusion.

Photomicrographs and graphs of data analysis will be incorporated into the report.

Cost varies, please inquire.
